Your application and all required documentation through your recruiter/coordinator must be received by the NROTC selection board no later than 31 December for consideration for Pre-Med.

____ Five college choices. You must select five choices for the college or university you want to attend on the NROTC scholarship. We will try to place your scholarship at your first choice school but, due to limits on the number of scholarships that may be placed at each school your scholarship may be placed at your second through fifth choice school.

The scholarship offer is for a specific school and may not be used at any other NROTC school without prior approval. For a listing of Naval ROTC Units and associated schools, see: <https://www.netc.navy.mil/Commands/Naval-Service-Training-Command/NROTC/Navy-ROTC-Schools/>

If selected, you will be placed at the first school listed in your application that has room for another scholarship and may not be used at any other NROTC school without prior approval. You must apply to, be accepted at, and enroll in your assigned school to utilize the

scholarship. Applying to more than just your first-choice school will increase the chances for acceptance and enrollment and will therefore increase the opportunities to use a scholarship if selected. If selected, and you want to switch to a school other than something in your top five choices, please contact grlk_nrotc.placement@us.navy.mil with your request.

__Acknowledgement. Make sure you check the acknowledgement box underneath your college choices indicating you understand that you must apply to these college/university choices. Please let us know how strongly you feel about your choices and the order in which you have placed them.

__College major for your first-choice school. What is your planned college major? Please select from the list available and choose a major (with its associated tier) that you think you'd like to study. If offered a scholarship you will need to enroll in the Tier/Major in your application to activate your scholarship.

Essays

__Essays. You are required to compose your own statements. You should think carefully about what you wish to say and attempt to answer the question or discuss an issue as concisely and completely as possible. You will be required to sign a

statement that certifies that the statements are original work and that you composed them yourself. These are short essay questions that should consist of one to two paragraphs with 250-500 words (2500 characters).

Finishing Your Application

__Application Audit. After selecting ‘Audit’, the application will check several key areas. In some cases, an item will be flagged for completion or correction. These key areas must be completed correctly before you can submit your application. In other cases, you will be informed that information appears to be missing or incorrect and given the option to submit the application as it is. This indicates that the field is not mandatory, but you are reminded that the more complete and accurate your application, the better the board will be able to evaluate your application.

__Personal Review. After you have reviewed and corrected any problem areas, you should review the entire application for accuracy and completeness.

Providing false information could result in your application not being considered or in revocation of a scholarship offer.

__Save a Copy of Your Application. At any time while working on this application, but most especially at the time you submit it, you may create a printable PDF (Adobe Reader) version of your application. You may download this PDF file to your computer and print it if you want a paper copy. You will need to provide a copy of your application to the person who will be conducting your Officer Interview. It will be a reference for you of the information you submitted.

We strongly suggest you work with your coordinator/recruiter and have them thoroughly review your application before you proceed to the next step.

__Submit. When you and your recruiter/coordinator are satisfied that the application is as thorough and complete as you can make it, then click the ‘Submit’ button.

After submitting the application, you will no longer be able to login and make changes to it. If you do login, you will be taken to a screen where you may see the status of your application.

If you wish to make changes to your application after you have submitted your application, use the Application Adjustments email at: grlk_nrotc_applications@us.navy.mil

Updates or additions to your application must be received prior to 31 Jan each year.
